

Conocoryphe heberti Munier-Chalmas & Bergeron, 1889 (TH595)

Conocoryphe → Order Uncertain (ex-Ptychopariida) → Conocoryphidae

Provenance : Spain; Murero

Formation : Murero Fm

Age : Cambrian (Drumian)

Details : Cephalon only. Pity about the slight damage on the glabella, but you gotta love that granulate surface detail, eh?. In Spain, the species is also present in the Drumian-Guzhangian aged Oville Fm. It is also found in the Montagne Noire of France, and in the Taurus Mountains of Turkey. Scale = 5mm/square.
