

Ichnofossil : Cruziana (C1)

Provenance : US; Arizona, Washington County

Formation : Hale Fm

Age : Carboniferous, Lower Pennsylvanian

Details : I am a little hesitant to mark this ichnofossil as being cruziana (trilobite trackways), since in fact they may have been made by another arthropod.

Bought on : 02/03/2014

Bought : Marche Couvert, Hannut

Event : Hannut 2014
