

Parabailiella cf. languedocensis (Thoral, 1946 as *Conocoryphe*) (TH530a-b)

Parabailiella → Order Uncertain (ex-Ptychopariida) → Conocoryphidae

Provenance : Czechia; Jince, Vinice Hill, "Baze" site

Formation : Jince Fm, *Sternbergaspis brdensis* Zone

Age : Cambrian (Wuluian)

Details : Complete but damaged (left side) specimen, plus a partial thoracopygidium. ***Parabailiella*** is a subgenus of ***Conocoryphe***. I love how the sediments give different colors to the piece. Scale = 5mm/square
