

***Leonaspis* sp.** (TH240a)

Leonaspis → Odontopleurida → Odontopleurina → Odontopleuroidea
→ Odontopleuridae → Odontopleurinae

Provenance : Morocco; Timrzit

Formation : ? Fm

Age : Lower Devonian

Details : Complete specimen. Was sold to me as *Leonaspis deflexa* (known from the Silurian of Dudley, UK), to which it slightly resembles. However, in this case, the person identifying the beastie went too much by the slightly pink lithology...having visited the site where this species is found, I find it doubtful that we have to do with Silurian sediments; in fact they are Emsian, Pragian at best (***Walliserops*** being found at less than 50 meters from the "*Leonaspis* Couche")!

Bought on : 19/06/2018

Bought at : Sainte-Marie-aux-Mines

Event : SMaM 2018.
