

***Ceratonurus* sp.** (TH153)

*Ceratonurus* → Odontopleurida → Odontopleurina → Odontopleuroida → Odontopleuridae → Selenopeltinae

**Provenance** : Morocco; Djebel oufatene

**Formation** : ?Ihandar Fm

**Age** : Lower Devonian, Pragian

**Details** : Sold to me at same occasion as TH152. Although this *Ceratonurus* is certainly not a perfect prep either, it's however a step up. Sure, the median spines on the anterior part of the cephalon are both missing, but otherwise there's not a lot of "hits".

**Bought on** : 10/05/2015

**Bought at** : Antwerp Expo

**Event** : Minerant 2015
