

Menomonnia semele (Walcott, 1916) (TH608)

Menomonnia → Order Uncertain (ex-Ptychopariida) → Menomoniidae

Provenance : USA, Utah, House Range, North Canyon

Formation : Weeks Fm

Age : Middle Cambrian

Details : Complete specimen (from an old collection), bought under its scientific synonym *Densonella*. Piece is most probably the result of a lucky split which was never given the benefit of additional prepping (some careful sandblasting might work miracles here).

Bought on : 26-27/08/2023

Bought at : Salle Omni Sports, Bernissart

Event : Bernissart 2023
