

Ectillaenus giganteum (Burmeister, 1843) (TH119c)

Ectillaenus → Corynexochida → Illaenina → Illaenoidea → Illaenidae

Provenance : Spain; Toledo region

Formation : ? Fm

Age : Upper Ordovician

Details : Complete specimen with a crack on back of stone with *Asaphellus toledanus*. As visible in the image the specimen was broken up during extraction, and possible one dared not prep the piece out further after having glued the piece (that, or the “prepper” was simply a lazy bum, hahah).
