

Rusophycus (C12)

Rusophycus → Ichnofossil of trilobite resting place during burrowed hunting.

Provenance : USA; Ohio, Warren County

Formation : Liberty Fm

Age : Upper Ordovician

Details : Regrettably the fossil came without extra matrix, but the addition to the collection comes thanks to a gift from Benedikt Magrean. Must've been a rather tiny trilobite, eh?

Received on : 4-5/11/2023

Received at : Palais des Congres, Liege

Event : Intermineral 2023
