

***Thysanopeltis* sp.** (TH627)

Thysanopeltis → Corynexochida → Illaenina → Illaenoidea → Styginidae/Scutelluidae

Provenance : Belgium, Beauraign

Formation : Jemelle Fm, Vieux Moulin Mbr

Age : Middle Devonian (early Eifelian)

Details : Eroded partial pygidium. Again, sorry for the poor quality of the images. As mentioned already elsewhere, I preferably do my photography by counter-light on a sunlit day, but at this occasion the sky was again completely overcast. I promise to exchange this file with better images one day (please be patient).
