

Cyclopyge aff. sibilla Šnajdr, 1982 (TH263c)

Cyclopyge → Asaphida → Asaphina → Cyclopygoidea → Cyclopygidae

Provenance : Morocco; El Kaid Errami

Formation : Izegguirene Fm

Age : Upper Ordovician, Lower Sandbian

Details : Complete specimen with lower quality of preservation than (TH262 + 262a-b). As it happens, I already had a specimen of this species, but in quite a different type of preservation (harder stone, better preservation), and therefore did not remember it when I saw this one. Never mind...the other specimen was bought at quite a higher price, and it's always interesting to get additional specimens.

Bought on : 2-3/03/2019

Bought at : Marché Couvert, Hannut

Event : Hannut 2019
