

Cruziana (C14)

Cruziana → Ichnofossil of trilobite/arthropod crawling through the mud during hunting.

Provenance : Germany; Niesky vicinity, Gross Radisch

Formation : Liberty Fm

Age : Lower Ordovician (Tremadocian)

Details : Addition to the collection thanks to Benedikt Magrean. You might not actually make out the traces on the images below (I mean, I had trouble myself when observing the stone).

Bought on : 4-5/11/2023

Bought at : Palais des Congres, Liege

Event : Intermineral 2023
