

Otarion sp. (TH518)

Otarion → Aulacopleurida → Aulacopleurina → Aulacopleuroidea
→ Aulacopleuridae → Otarioninae

Provenance : Spain; Palencia, Fuentes Carrionas

Formation : Abadia Fm

Age : Devonian, Emsian

Details : Partial internal imprint (which nevertheless left some coloration in the matrix) of a fairly complete specimen. The site appears to be bad to the preservation of trilobite exoskeleton [also check out (TH517) *Kettneraspis sp.* & (TH516) *Leonaspis sp.*].
